PROJECTS					
Event Management App:		https://event-management-frontend-git-main-prasanth-s-ks-projects.vercel.app/			
Technologies: React.js, Node.js, Express.js, MongoDB, CSS3, Figma and Git/GitHub Deployment: Frontend – Vercel, Backend – Render Built a full-stack event management application with CRUD functionality for events, users, and registrations. Developed RESTful APIs using Node.js, Express.js, and MongoDB/MySQL. Created responsive UI components with React.js and CSS3, translating Figma wireframes into functional interfaces. Implemented JWT-based authentication for role-specific access (users/admins). Deployed frontend on Vercel and backend on Render for live accessibility. Optimized performance, added error handling, and ensured data consistency. Demo credentials available upon request.
